Dear Mrs. Fritsch:

We have some more gold ingots we want to send to you for licensing in time for me to pick them up at your office on July 6 or 7 for return to San Francisco.

Will you tell me at your early convenience how much time you will need to conduct your examination and processing of these gold pieces so that we can ship them to you in ample time to have them ready for my pickup in person in Washington.

You might also tell me exactly how they should be addressed as we will, of course, ship them insured and registered to whomever you designate in your Department.

I hope this finds you well. Please remember me to Miss Picknell, and I will look forward to seeing you again. Thank you for your early attention.

Cordially,

JDL/ar

Note:
I called Mr. Stefanelli & he agreed that the bars should be sent directly to him as Mr. Wolfe suggested
